

Ministry of Food Processing Industries (MoFPI), Government of India is organising “World Food India, 2017”, a mega international food summit in New Delhi, during 3rd – 5th November, 2017.

2. “World Food India 2017” is primarily aimed to show case the vast investment opportunities available in India for all food processing and food retail players including food processors, technology providers, & equipment manufacturers & suppliers, logistics providers, cold chain operators as also the food retailers. This would provide a platform to showcase, connect and collaborate with potential investors, suppliers, purchasers and also joint venture partners. All these activities are aimed at increasing mutual cooperation and foreign direct investment in this sector. Recently, Government of India has announced 100% FDI through automatic route in food processing and 100% FDI in retail trading of food products produced and/or manufactured in India.

□

3. The event will have sectoral seminars, state seminars, country seminars, Business to Business (B2B) sessions, Business to Government (B2G) sessions, Government to Government (G2G) sessions, besides an exhibition wherein state pavilions, sectoral pavilions and company stalls would be put up. A unique world food street would be a special attraction wherein cuisines from India and world food with Indian ingredients would be on display.
