

Connect * Communicate * Collaborate

Port Klang Net Outreach Program for Shipper & Consignee (Klang Chinese Chamber of Commerce & Industry - KCCCI)

**Building Smart
Supply Chain Logistics**

27 Nov 2017

Port Klang Net Outreach Session

Topics to be covered:

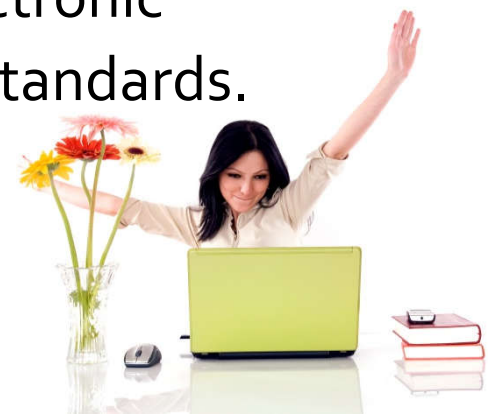

1. Knowing Port Klang Net
2. Data sharing experience from China
3. Video on MAQTA Gateway
4. Shipper Registration
5. Nomination of FA by Shipper/Consignee
6. Intro to Shipper Module (Cargo Unify)
7. Questions & Answers

Knowing Port Klang Net

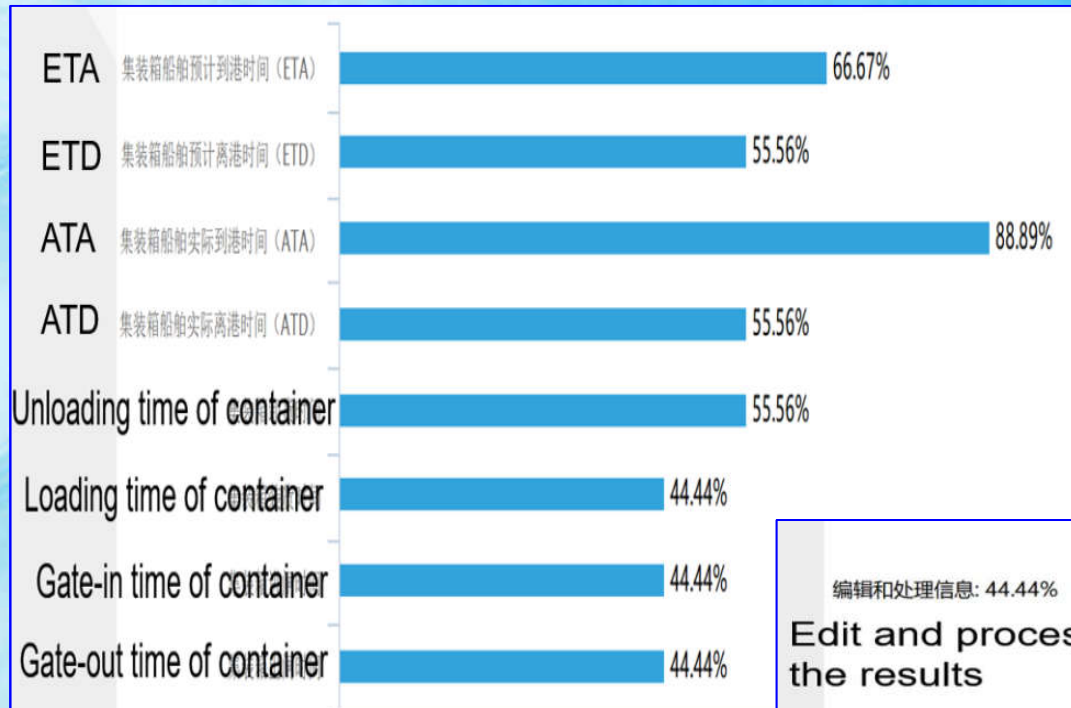

1. Port Klang Net is a **Community System** owned by PKA.
2. Its main objective is to promote full-scale electronic platform to facilitate **an end-to-end logistics and supply chain capabilities**.
3. Enabling key logistics operators to **achieve automation in their key processes** in line with the world business trends.
4. **Enabling cross-border cooperation** through electronic exchange & sharing of data using agreed global standards.
4. **Ensuring data accuracy, accelerate data interchange** with auto-populating capabilities and ensuring send & receive authentication.

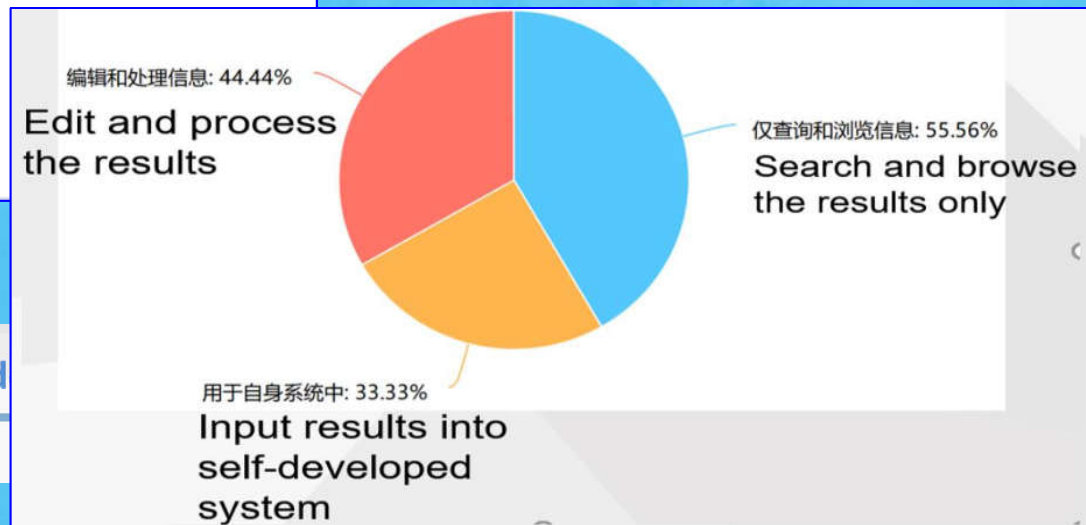

Use of Dynamic Vessel Status Information in China

The results show that: logistics enterprise mainly concern ETD, ETA, ATD, ATA (most).

NEAL-NET information are mainly used for following purposes

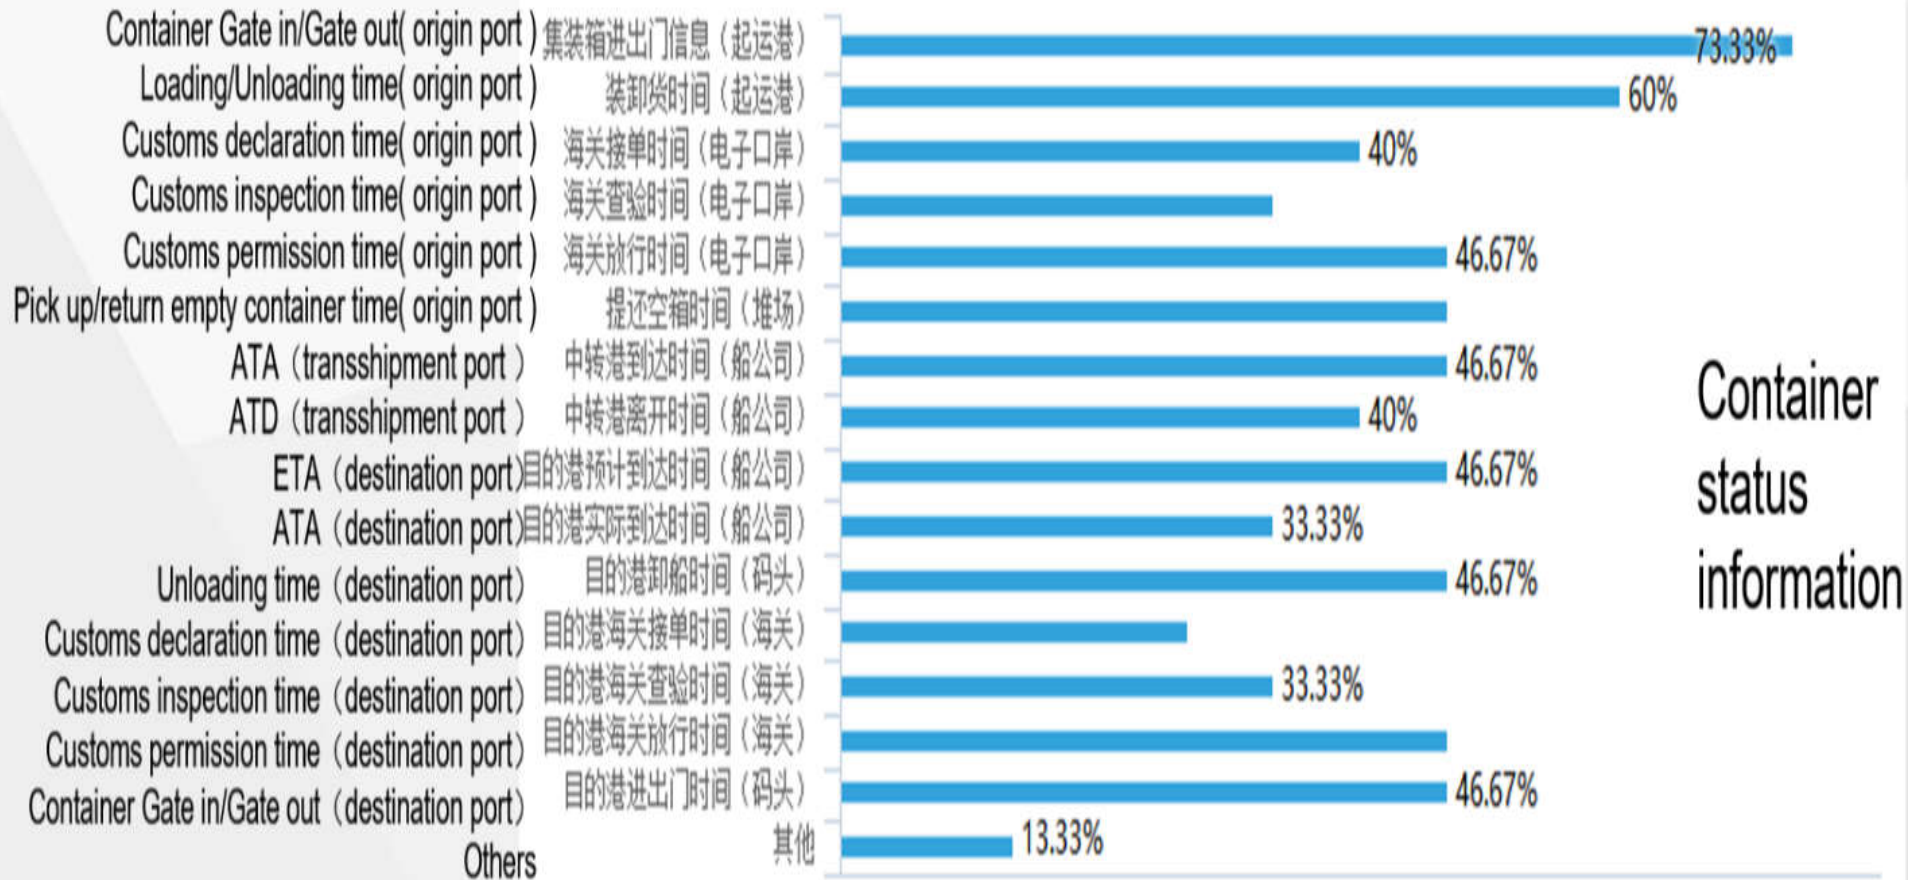

ETA = estimated time arrival
 ETD = estimated time departure
 ATA = actual time arrival
 ATD = actual time departure
 Unloading time = from vessel
 Loading time = into vessel
 Gate-In = entering port gate
 Gate-Out = leaving port gate

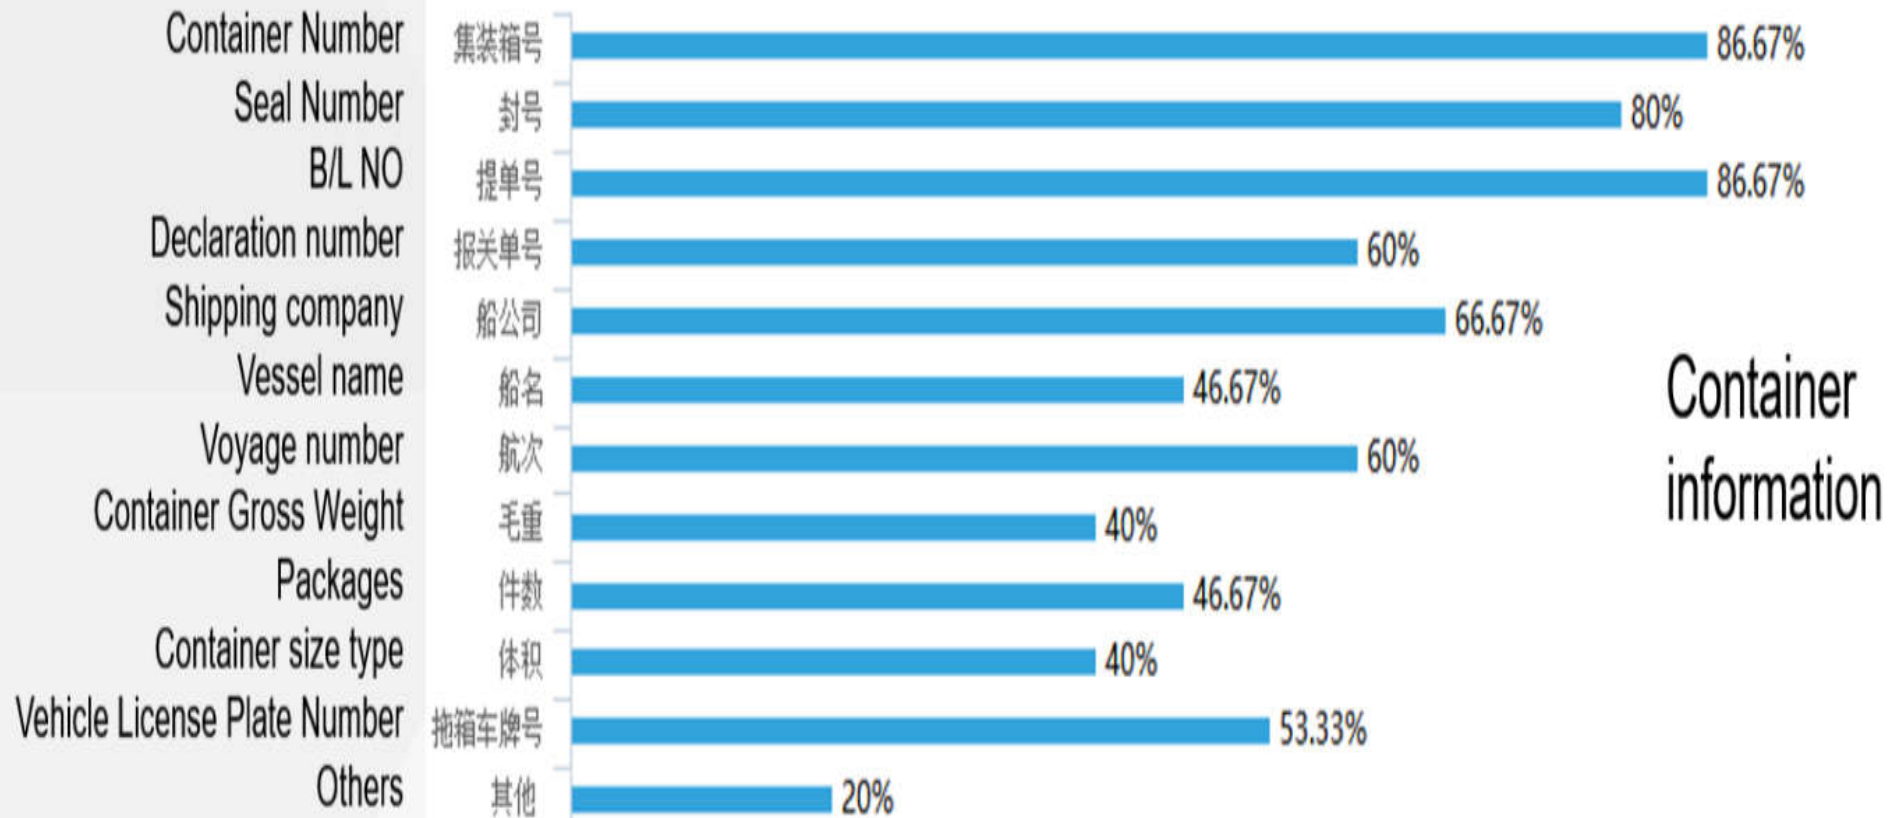

Use of Dynamic Vessel Status Information in China

- Respondents more care about gate in/out and loading/unloading time (origin port).
- Then customs permission time, **pick up/return empty container time (origin port)**, ATA, ETA , unloading time, customs permission time, gate in/out (transshipment port)

Use of Dynamic Container Information in China

Users care more about Container Number, B/L No. and Seal Number, .

SINGAPORE

New data platform launched to boost Singapore's logistics sector

By Vanessa Lim

Singapore

New data platform launched to boost Singapore's logistics sector

Currently, there's no common digital system that allows data sharing for various industry players. Instead, players use a variety of disparate systems that may be incompatible with each other, hampering communication between them.

A new data platform for the logistics sector that allows various players along the supply chain to keep track of cargo movements was launched by Senior Minister of State for Trade and Industry Dr Koh Poh Koon on Thursday (Nov 9).

How You Can Nominate Your Forwarding Agents in PKNet ?

Port Net: Technologies that transforms the way information are exchanged across logistics value chain.

Nomination of Forwarding Agent by Shipper (Consignee)

Easy steps to follow:

1. **Reminder: Only Admin can nominate/appoint FA.**
2. **Login in as Admin at www.my1port.com**
3. **Select your Forwarding Agent from the list.**
4. **An email will be sent to the nominated FA.**
5. **Nominated FA (admin) to login in PKNet.**
6. **A page will be shown & FA (admin) to accept.**
7. **Once accepted, PKNet will LINK both of you.**
8. **Thereafter, Shipper will receive all updates via their front-end (Cargo Unify).**

Why Nominate ?

1. That a contractual relationship can be established.
2. **Most importantly:** All status information are directly channel to you via the front-end application on real-time basis.
3. Information provided are collated by Container No & B/L No which can be preview and if required, can be printed as a performance report.
4. So that informed decision can be made readily.
5. At any time, you may terminate your nomination.

How ?

Port Net: Technologies that transforms the way information are exchanged across logistics value chain.

First: Login as Admin

1. Fire up your browser to www.my1port.com
2. Important: You must be the ADMIN of your account.
3. Login using your Account No + User ID + Password.
4. Immediately, you will see the HOME Page of your Account.

Click the Login Icon Keyin page
